PROFESSIONAL EXPERIENCE

Volunteer Web/Magento Developer

November 2021 – April 2024

Kinshasa DR Congo / Madagascar

- Remotely managed and led a small flower nursery company with 8 employees between 2 countries since *November 2021*
 - Establish an online store to maximize sales, widen customer reach out, and increase the company's visibility using Magento 2
 - Ensure supplier's relationship, in charge of purchasing and replenishing products.
 - Conceived an accounting management tool to reduce paper usage by 50%, generate financial reports and an overview of cash flows using Symfony
- Created an electronic signature bridge with Symfony. Chose LDAP Authentication to secure employee access, used SFTP protocol to instantly send resized pictures to the remote server, and fetched customers from the Oracle database. 100% compliant outcome with servers' security risk as it combined all processes into one in 2 months

Self employed

2016 – December 2019

Launched a Start-up *from 2016 to 2019* that advocated street children's help and mutual aid with a win-win concept of try-help-win.

- Developed an online store/auction to allow people to bid on a product for a participation fee using Magento 2.
- Implemented a mobile payment gateway to bring innovation to online payment in African countries.
